Securing the Perimeter - your cybersecurity questions answered

On Wednesday 14 June at the Digital Greenhouse, we're convening a panel of four cybersecurity experts specifically to answer your questions about network and information security.

This is the second of Sure International's breakfast briefings for 2017 and we'd love you to join us for what is set to be an enormously useful event that promises to get to the heart of security issues.

Our panel has every corner covered and will take questions on all aspects of security, so you can ask them to focus on the topics that are most important to you.
